LARGE SPECIMEN TREES
NURSERY GROWN - TRANSPLANTED

These trees are all grown far apart in nursery rows, having been frequently transplanted to insure a good root system and render them especially suited for future moving. The caliper measurement is taken at a point twelve inches above the ground and indicated as diameter.

The saving of time in planting such trees is so marked that scarcely any home owner can afford to plant the usual small tree which would require ten to twenty years to equal these in size.

The prices quoted below are for the trees dug with a large ball of earth, but not planted. Planting charge varies from 50% to 75% additional, depending upon conditions at point of planting, accessibility, distance, etc.

FRUIT TREES AND SMALL FRUIT PLANTS

Are available in the Spring and Fall planting season in large assortment of varieties. See special list.

HARDY HERBACEOUS PERENNIALS AND ROCK GARDEN PLANTS

Are available throughout the season either potted or packaged at 50 cents to \$1.00 each. See special list.

SPRING FLOWERING BULBS

Tulips, hyacinths, crocus, narcissus and miscellaneous bulbs available in early Fall. See special list.

ANNUALS AND VEGETABLE PLANTS

Available in Spring planting season in assorted varieties.

WATER LILIES AND LOTUS

Available in Spring planting season in assorted varieties from \$1.50 to \$3.50.
